2020

Dear Third Grade Parents,

We are praying that your summer vacation is restful, fun, and full of special memories. We have assigned summer reading and math work to reinforce the important skills your child has learned this year. Spending time reviewing these skills over the summer will help your child feel confident and prepared for a strong start to the new school year.

Reading

Students entering third grade are required to complete the following this summer:

Read *Clementine* by Sara Pennypacker

Complete **four** activities from the attached Reading Choice Board

Math

Students will complete the attached 50-Day Summer Math Challenge:

Each day, students will find two numbers and use them to complete the "Summer Math Challenge Guide." (see attached)

Work should be completed in a notebook, spiral notebook, or composition book. Please label each day's work neatly. Start with a new page for each day- do not combine days on the same page

Students must carefully follow directions and show their work for a minimum of 30 days to receive credit. Students are not permitted to use a calculator.

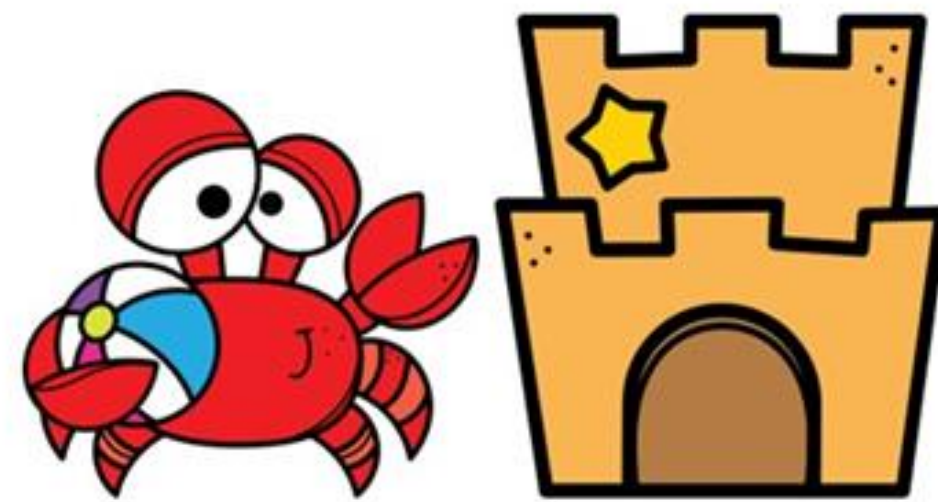

Please have a grown up check your work.

All summer assignments are due on the first day of school, Tuesday, August 11th. A quiz grade will be recorded based on the completion of the work.

Thank you for your partnership and support. We hope your family enjoys a wonderful summer!

Your Third Grade Team
